

SUSTAINABLE CHELTENHAM NEWSLETTER

November 2013 Special Edition

The Cheltenham Township Environmental Advisory Council

Sustainable Development

Promote building, land use, site development, and landscaping that respects the natural environment and maximizes clean and efficient use of resources, and ensure that all permitting, codes, and regulations support the community's sustainability goals.

Sustainable Living Open House - LEED Platinum

The Cheltenham EAC invites you to attend the Sustainable Living Open House Tour at the Wyncote home of Dr. Sidney Kahn. Learn about sustainable renovation practices and how they can benefit your home's environment while conserving energy, water and natural resources. Discover how partnering with professionals like John Hubert Architects has helped Dr. Kahn transform his home into a nearly carbon-neutral property.

The Open House Tour will be led by Dr. Kahn with the help from Cedarbrook Middle School students. Learn about how you can apply some of these sustainable development practices to your next home renovation.

Date: Sunday - 11/24/13
