

Rain Barrels

Rain barrels store rain and hold it to be released in drier weather. This helps water quality in our creeks by decreasing runoff and minimizing demand on our stormwater system.

Barrels **save you money** because you'll use less tap water!

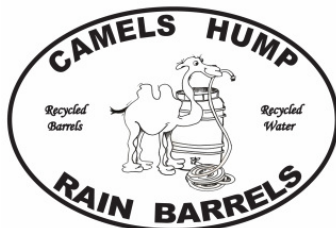

Use the stored water for gardens and lawns, or wash patio furniture and cars.

Join with your neighbors to improve our creeks!

Order your rain barrel today!

Order online: ttfwatershed.org/rain-barrel-order-form

Details about the barrels at camels-hump.com

Cost per barrel: \$75 plus tax

We'll arrange for delivery to a convenient pick-up location.

We'll let you know where and when!
