

Online
Adventure
Camps

Online Adventure Camps (OAC) offers a wide variety of fun and interactive summer programs for kids, pre-teens and teenagers this summer stuck at home and without an in-person camp to attend. Our 22-year history of operating summer camp programs nationwide (both in-person and online) make OAC one of the most trusted platforms for employers, school-operated camps, parents and children. Over the years we have served over 1,000,000 campers and worked with over 100,000 counselors and instructors.

OAC offers age-appropriate camp programs for girls and boys ages 3 to 15. Programs include: traditional day camps, science exploration, magic, Minecraft & Roblox, musical theater, sports broadcasting, entrepreneurship, sewing, cooking, and so much more!

Camp sessions are available starting June 1st and are offered as one-week sessions (Mon-Fri) for 14 straight weeks, ending in late August. All programs are intentionally scheduled to accommodate parents working from home with children who have very little to do. Periods start as early as 8:30am (EST & PST), structured so campers may enjoy 3 one-hour periods per day, with plenty of screentime breaks in between, and end around 3:30pm (EST & PST) each day.

Safety, interaction, and fun are embedded into each and every program so parents can focus on “parent time” and kids can enjoy “kid-time” without interruption. With professional adult counselors, OAC provides much-needed structure, routine, and a daily schedule to households across the country.
